There are several articulation based apps however they are not typically cheap

App Finders

KinderTown App finder: allows you to shop by device, price/free, age and subjects

AppShopper: allows you to search for apps by category and price; if you find an app that you want, you can place it in your 'wish list' and receive notice of price drop/increase.

Every Friday, Moms With Apps has a listing of free and reduced apps at appfridayparty.com or you can download their App Friday app. This app contains short clips and reviews of the apps so you can 'preview before purchasing'.
